SUMMARY

- Motivated and detail-oriented Computer Science graduate with a strong foundation in developing innovative, user-focused solutions. Experienced in working on diverse projects, ensuring seamless functionality, and delivering high-quality results. Skilled in collaborating with teams to meet deadlines and exceed expectations. A quick learner with a passion for solving complex problems, adapting to new technologies, and driving continuous improvement. Dedicated to creating impactful solutions that align with user needs and organizational goals.

WORK EXPERIENCE

WORDPRESS DEVELOPER   **June 2021 - Mar 2023**

Buzzware Tech

- At Buzzware Tech, I worked as a WordPress Developer, focusing on creating dynamic and user-friendly websites while adhering to industry best practices. By actively contributing to various projects, I showcased strong proficiency in coding, customization, and delivering high-quality web solutions tailored to client requirements.

FREELANCER   **July 2021 - Present**

Upwork

- Since July 2021, I have freelanced on numerous projects, excelling in HTML, CSS, JavaScript, Shopify, WordPress, and UI/UX designing. My diverse skill set has enabled me to create dynamic, responsive, and visually appealing websites tailored to meet the unique needs of my clients. By integrating effective UI/UX principles, I ensure that the websites not only look great but also provide seamless and intuitive user experiences. Through these projects, I have gained extensive experience in both front-end and back-end development, consistently delivering high-quality, functional, and user-friendly solutions. My ability to understand and address client requirements has consistently resulted in successful project outcomes and high levels of client satisfaction.

UI DESIGNER   **Mar 2022 - July 2024**

Google Developers Group

- As a UI Designer at the Google Developers Group, I collaborated on creating intuitive and visually appealing user interfaces for various projects. By focusing on user experience and accessibility, I designed prototypes and interfaces that aligned with modern design principles. My role involved working closely with developers and team members to ensure seamless integration of design and functionality, resulting in engaging and user-centric digital experiences.

WEB DEVELOPER   **Aug 2023 - July 2024**

Al-Azhan Information Technology

- As a Web Developer at Al-Azhan, I leveraged my expertise in WordPress to craft efficient and scalable websites. This role honed my skills in both front-end and backend development. I was responsible for designing and developing a variety of web applications, ensuring seamless functionality and user satisfaction.

- HTML
- CSS
- PHP
- JavaScript
- WordPress
- Shopify
- Kotlin
- R
- C++
- SQL

SOFTWARES

- Visual Studio Code
- Visual Studio
- Android Studio
- Google Collab
- PowerPoint
- Firebase
- Word
- Figma

HOBBIES

- Swimming
- Horse Riding
- Trading

Final Year Project   QURBANI QUEST

- My final year project is an Android Application called Qurbani Quest. Qurbani Quest is an Android application that is designed to make Eid-Ul-Adha, Sadqah, and Aqeeqah digital and easy. The Seller, Buyer, Butcher, Transporter, and Third-Party Service are the five main sections of the app. Buyers can bid on listed animals, hire transporter, butcher, or third-party service providers. Seller can upload animal profiles, manage offers made by the buyer, and track their orders. Butcher, Transporter, and Third-party service providers can accept or decline offers made by the buyer and track their order. The app also features a chatbot for FAQs, reducing the need of direct assistance. Qurbani Quest digitalizes and simplifies the process of Qurbani.

Technologies: Android Studio, Java Language, Firebase, BotPress

ADDITIONAL INFORMATION

- **Additional Skills:** Project Management, Communication Skills, Team Work.
- **Languages:** English, Urdu, Pashto, Hindko
- **Certifications:** Mobile App Development, UX/UI Design, Version Control, Programming Fundamentals in Kotlin, Operating Systems and You: Becoming a Power User, Create the User Interface in Android Studio
